EDUCATION

Rochester Institute of Technology, Rochester, NY — B.S. in Software Engineering

AUGUST 2022 - PRESENT

Participated in a rigorous curriculum combining principles of computer science, engineering, and project management. Gained extensive experience with Python, Java, and C through group and individual projects.

PROJECTS

Portfolio Website — Bootstrap, HTML

Created an updatable portfolio website to host my resume, projects, and contact information. Ensured responsive design and compatibility across devices with Bootstrap's grid system. Included dynamic content with updatable projects and rotating carousels.

Multi-User Dungeon — Java, JavaFX

As part of a group, created an interactive, text-based adventure game, where the player interacts with monsters with multiple stats and randomized items.

EXPERIENCE

WTR (College Radio Station), Rochester, NY — Event Coordinator

NOVEMBER 2022 - APRIL 2024

Communicated regularly with participants throughout the duration of each event cycle, oversaw setup and tear down of events. Resolved any issues that arose during events in a professional manner while maintaining composure under pressure.

SKILLS

Web Development
Python
Java
Full-Stack Development
Angular/React
Bootstrap
Project Management
Team Leadership
Agile and Process Methodologies
Algorithm Design
Object-Oriented Programming

AWARDS

Dean's List
2023-24 Fall
2023-24 Spring
2024-25 Fall
